# LDC Conference 2017

## Update from GDPC

Henrik Overgaard-Nielsen  
Chairman GDPC

## Motion 6

This Conference calls on the GDC to explain why only seven cases have been referred to NHS England and demands that it starts to engage properly with both NHS England and the profession

## Motion 11

Conference calls for contract breach notices to expire after three years or when NHS England breaches a practice contract

## Motion 18

This Conference demands the return of funds from unused UDAs back into the dental budget, allowing dentists to improve the oral health of more patients.

## Motion 21

Conference demands that the DH and the GDPC address the major flaws within the recently published commissioning guides including lack of consultant and specialist availability together with under-funded services, and seek a solution immediately.

## Contract reform

- Evaluation report in autumn
- New contract will not be imposed

## Experience with prototypes

- Oral Health Assessment 
- Pathways 
- Business model 

## Why capitation?

- Incentivises prevention and professionalism
- Fewer tick boxes and targets
- Secures turnover with less treatment need

## Stay as we are is not an option

- Treatment need decreasing
- Dental Assurance Framework
- Oral Health Assessment
- Pathways

But the business model needs to  
be sorted out!

## DDRB

- Nothing official from DoH England
- 1% pay uplift
- Expenses are “negotiated” with DoH
- Staff costs at 1% not 1.6%
- Inflation as CPI not RPIX
- Backdated

Thank you
