

# Regulation of Dental Services **Programme Board**

LDC Conference Update

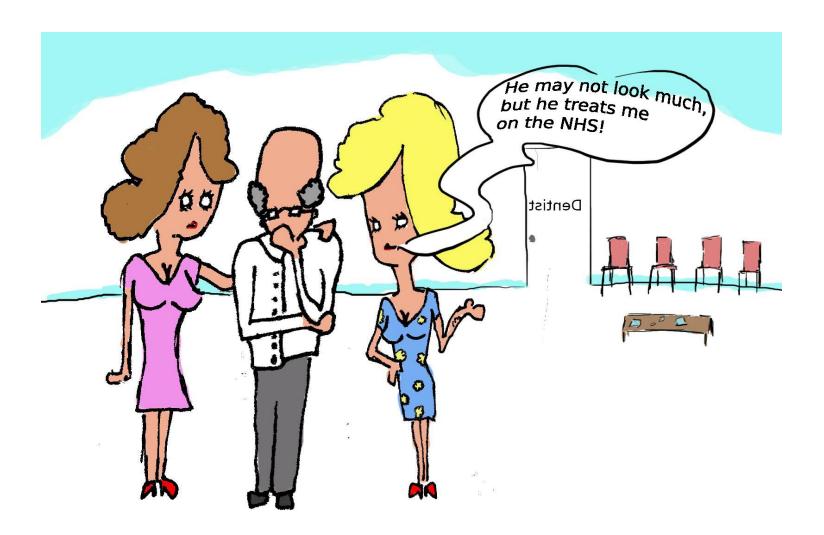

### **Quality improvement framework**

Recommendation from the Board:

"Define the system for quality improvement in the dental sector and the role of key stakeholders in improvement."

Underpinning concept of the proposed framework:

- Maintaining good practice and preventing poor practice from emerging.
- An open learning culture, with structured peer support between professionals, where dental clinicians monitor and regulate their own clinical performance.
- If concerns arise, a proportionate structured approach involving peer support, followed by more direct supervision and finally externally governed sanctions.

#### Regulation of Dental Services Programme Board

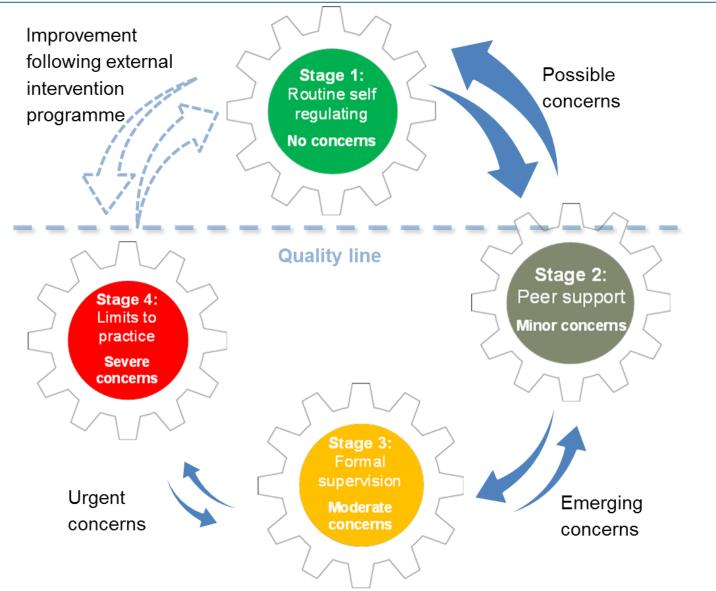

protecting patients, regulating the dental team

#### Regulation of Dental Services Programme Board

- Peer Review Groups
  - Reduce isolation
  - Safe environment for learning and reflection
  - Works well when structured and written up
  - Good examples e.g.
    Staffordshire

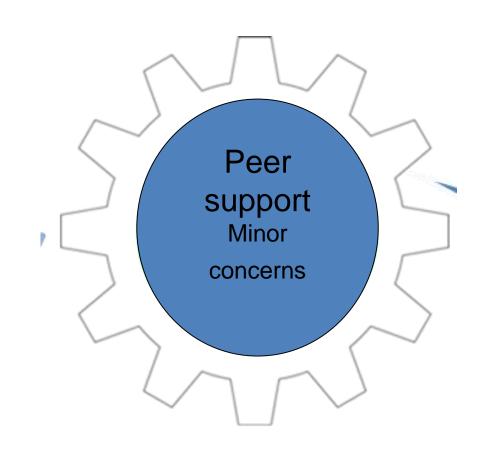

- PASS schemes
  - LDC led
  - Validated and recognised
  - Safeguards
  - Trained mentors
  - Can build on audit, peer review and appraisal

# This may not be effective Peer Review.....

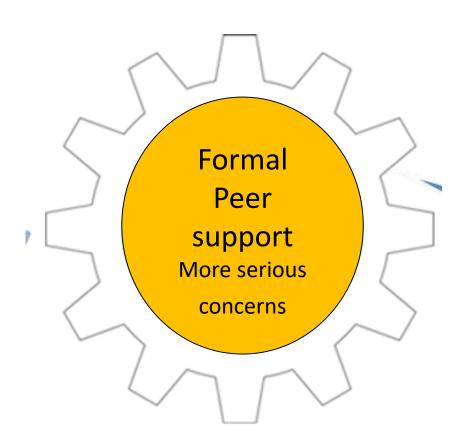

- PASS schemes possible second tier
- Referrals from:
  - GDC---PAG (NHS)
  - CQC
  - NHSE
